TERSE PROCLAMATION

For Government of the People of Santiago.

GENERAL WOOD ISSUES IT.

The Document Is Composed of Ten Pithy Sections, and Is a Sort of Provisional Declaration of Independence.

Santiago, Cuba, Oct. 22.—General Leonard Wood, military governor pro tempore of the department of Santiago, has issued a proclamation, in ten sections, which is a sort of provisional declaration of independence.

The first article guarantees to the people the right of assembly for the common good and to apply to those in power by petition or remonstrance, for the redress of grievances.

The second section guarantees the right to worship God according to individual conscience, provided there is no interference with any existing form of worship.

The third section directs that courts of justice shall be open to all and that no private property shall be taken by the government without compensation.

The fourth section, dealing with criminal trials, invests the accused with the right to be heard himself or by counsel and to have compulsory process to secure the attendance of a witness in his behalf.

Fifth section says no person accused of crime shall be compelled to give evidence against himself, and the sixth declares that no such person, who is once acquitted of the charge brought against him, shall be tried again for the same offense.

Seventh section provides that all persons charged with crime shall be entitled to bail, except in cases of capital offense, and that the writ of habeas corpus may not be suspended except the commanding general of the department deems it advisable.

Eighth section says that excessive bail shall not be required and that no excessive fine nor cruel or unusual punishment shall be inflicted.

The ninth provides that in order to secure the people against unreasonable search, there shall first be established under oath a presumption of guilt. And the tenth and last section guarantees to all the right to write or print freely on any matter, subject to responsibility for abuse of the right.

The municipal laws are to be administered in accordance with these declarations of rights, subject to modifications which, in the judgment of the commanding general, would be beneficial and promote the principles of enlightened civilization.

Discussing Cuba's Debt.

Paris, Oct. 22.—The joint session of the peace commission lasted over two hours. During this time the commissioners discussed the second series of written arguments put forward by the Spaniards for the purpose of prevailing upon the American commissioners to assume the Cuban debt. No definite conclusion was reached, and the commission adjourned. It is probable that this feature of the negotiations will be disposed of next week.

After a Fresh Supply.

Havana, Oct. 22.—The Red Cross society's steamer City of San Antonio sailed from Matanzas for New York to bring a fresh cargo of supplies to Havana. Her last cargo was all landed at Matanzas, where the officers of the Red Cross society remain to superintend the distribution. Reports are current that there has been some speculation at Matanzas in the Red Cross supplies, and these will be carefully investigated.

Intelligence From Dewey.

Washington, Oct. 22.—A telegram was received from Admiral Dewey at Manila saying that the collier Nero arrived at Taku with her coal on fire, and suggesting that as he has no further use of the vessel she be sent home. Admiral Dewey said nothing with regard to the political situation in the Philippines or the capture of any more ships belonging either to the Spaniards or to the insurgents.

Phelps Remains at Lexington.

Lexington, Ky., Oct. 21.—Private John Phelps of the Second Missouri regiment, who was publicly discharged and disgraced at Camp Hamilton, is still in the city. He takes his disgrace keenly and will not return home. Friends say he regrets the publicity he has received and will reform. He graduated from Yale in 1895 and was at Annapolis six months.

Died While Being Mustered Out.

Washington, Oct. 22.—The following telegram has been received at the war department: "Colonel Joseph R. Austin, First South Carolina, died at Yorkville, S. C., while waiting orders prior to mustering out. Causes of death will be reported later."

CLEVELAND VESSEL OWNER

Notified of the Destruction of Two Boats of His Fleet.

Cleveland, Oct. 22.—Word has been received here that six members of the crew of the big steamer Henry Chisholm, who were picked up in a yawl boat off Isle Royale, have arrived at Port Arthur, Ont.

They report that the Chisholm left Duluth Sunday with the schooner John Martin in tow. At 5:30 p. m. Monday, when off Keeweenaw Point, the Martin cut the tow line, and with her fore and main sails set was soon lost to view, as the weather was thick and the wind blowing a gale. The Chisholm cruised about until Thursday morning trying to find the missing schooner, but without success.

At 8 a. m., while trying to enter Washington harbor, at the southwest end of Isle Royale, the steamer struck the Rock of Ages and commenced to go to pieces.

The crew of 16 men abandoned their vessel and reached Isle Royale in safety and Captain Smith sent five of them, under Mate Wileman, to Port Arthur to report to the owner.

The Chisholm is rapidly breaking up and the vessel and cargo will be total losses. The crew of the steamer fear that the Martin has been waterlogged and gone ashore, somewhere along the south shore. The Chisholm was built in 1880. Her cargo consisted of 92,000 bushels of barley. The John Martin was built in 1873 and had a cargo of 1,200,000 feet of lumber. Both boats were owned by M. A. Bradley of Cleveland. Neither vessel is insured.

Wrecking Crew Sent.

Duluth, Minn., Oct. 22.—A wrecking expedition has been sent by the Inman tug line to the steamer Henry Chisholm, which is stranded on the Rock of Ages.

Spanish Soldiers as Policemen.

Havana, Oct. 22.—Colonel Waring of the United States sanitary commission will leave for New York by the steamer Yucatan. Regarding the statement recently published in the United States to the effect that Colonel Waring, speaking on behalf of the United States army officers here, favored a plan of enlisting temporarily from 75,000 to 100,000 Spanish soldiers for police duty in the islands, Lieutenant Colonel Clouse requests a repudiation, if by the term "army officers" Colonel Waring was understood to mean or include any members of the United States evacuation commission or of their respective staffs.

Lost in the Arctic.

Seattle, Wash., Oct. 22.—Adrian Tapney of New York, who arrived here from St. Michaels on the last trip of the steamer Roanoke, reports the probable loss of the schooner Annie Rowe in the North Sound and the drowning of 11 passengers. When the Roanoke left St. Michaels a party was preparing to go in search of the missing boat.

Peabody's Successor.

Cincinnati, Oct. 22.—The resignation is announced of Captain W. W. Peabody as vice president of the Baltimore and Ohio Southwestern railway because of ill health. His successor will be William M. Greene, who for the past two years has made such a signal success as general manager of the Baltimore and Ohio railroad.

Village Destroyed by Fire.

Reno, Nev., Oct. 22.—It is reported here that the village of Clairville was totally destroyed by fire. Five are reported to have been burned to death, among them a fireman on a Mohawk train and a waitress on the table at Clairville hotel, names unknown.

No Choice Made.

St. Louis, Oct. 22.—In the fire chiefs' convention there was a struggle between Syracuse, and Columbus, O., for the convention of 1899. An effort on the part of the Ohio delegates to force the issue provoked no little discussion. No choice has been made.

Saturday's Meeting Abandoned.

Chicago, Oct. 22.—On account of the fact that a number of prominent railway men have left Chicago for their homes, the meeting of the officials of the railway unions, which was to have the railway unions, which was to have abandoned.

Caring For Spain's Friends.

Havana, Oct. 22.—General Blanco has directed the military commander of the Holguin division to distribute any surplus commissary stores among those of the population in that district who have shown most friendship to Spain.

For a Skull Race.

Halifax, N. S., Oct. 22.—Michael Lynch of Halifax and Harry Vail of St. John have been matched for a three mile single scull race for \$150 a side and a side bet of \$150, the race to take place Oct. 31 on the Bedford course.

Troops Leaving Virden.

Springfield, Ill., Oct. 22.—Governor Tanner ordered three companies of the Third Infantry to leave Virden and proceed to their homes.

WITH A ROD OF IRON

Saucy Rebels Are Ruling in the Philippines.

EXCESSIVE DUTIES LEVIED.

Strenuous Protests of American and British Merchants in the Islands Against a Rank Injustice Come to Naught.

Manilla, Oct. 22.—The insurgents are enforcing an export duty of \$35 a ton upon hemp from southern ports brought to Manilla.

They are also enforcing 5 per cent tonnage upon steamers and 20 per cent upon freights. The American and British firms are compelled to pay these charges, though they protest strenuously against an arrangement all the more unjust because goods are entering Manilla by railway, from the north, which evade duty and can undersell the legitimate trade.

A Run on the Bank.

New York, Oct. 22.—The publication of the story that President Baltes had been offering his notes on the street caused a crowd to collect in front of the Mechanics' and Traders' bank before the doors were opened, and when business began, depositors lined up to the paying teller's window. All demands were promptly met. Officials of the bank assured the waiting depositors that the bank was perfectly solvent and that \$100,000 in cash had been received at the bank for those who wished to withdraw. One firm withdrew \$8,000, and from that figure sums as small as \$100 were drawn out.

Church Against the Masses.

Battle Creek, Mich., Oct. 22.—At the session of the Civic philanthropic conference, Rev. James Hamilton of St. Joseph accused the church of taking the part of the classes against the masses in the capital and labor contest. Hon. Walter Thomas Mills of Chicago defended co-operation and government ownership. Mr. Mills also urged the brotherhood of man. Rev. J. P. McVeety, presiding elder in the district of Michigan Methodists, advised the clergy to enter politics, cast aside their sanctified appearing garments and manners and work instead of talking so much.

Marchand Must Move.

London, Oct. 22.—Government circles here are apparently satisfied that the Fashoda question will not lead to war. At the same time, the determination is reiterated not to budge from the position which has been taken up, no matter what the outcome may be. It is said on good authority that the government has also determined not to brook unreasonable delay, and that in the event of France declining to evacuate Fashoda, the Marchand party will be removed from that place.

Memphis Now Open.

Memphis, Tenn., Oct. 22.—The board of health raised the quarantine and Memphis is now open to all points. Cold weather has prevailed for several days and the board regards all danger from yellow fever as past. The Memphis quarantine was inaugurated more than six weeks ago and was the most rigid in the history of the south, no one being allowed to enter the city from any part of the world.

Implicated the Chief of Police.

Omaha, Oct. 22.—The jury in the inquest over the body of William Walker, the prize fighter killed in a fight at South Omaha by Andy Dupont, returned a verdict holding Dupont as principal and Chief of Police Carroll of South Omaha accessory to the killing. The testimony apparently showed that Carroll had received money to allow the fight to proceed.

Coinage of Gold and Silver.

Washington, Oct. 22.—According to the report of the director of the mint, the United States coinage during the year was, gold, \$76,028,485, and silver, \$18,487,297, of which amount \$12,651,731 were in standard silver dollars. The world's coinage during the year, including recoinage, was: Gold, \$437,719,342; silver, \$142,380,588; or a total of \$580,099,930.

Missionary Work in Hawaii.

Washington, Oct. 22.—The general convention of the Episcopal church adopted a report recommending conference with the church of England before entering on independent work in Hawaii, the two churches doing joint work there now under agreement. Provision was made for a commission to start work in Cuba and Porto Rico very early.

Sale of Yearlings.

New York, Oct. 22.—A number of yearlings, the property of J. P. Haggin, were sold at auction at Morris park. The highest prices were: Bay filly, by Star Ruby-Darline, \$1,100; bay filly, by Sir Modred-Tourmalane, \$550.

STATE OF BUSINESS

As Shown by Dun's Weekly Review of Trade.

New York, Oct. 22.—R. G. Dun & Company's weekly review of trade says:

With growing foreign demand for American products, exchange is influenced mainly by political uncertainties abroad. While Europe waits for the outcome between England and France about the upper Nile, the financiers of all European countries are trying to force upon each other the burden of providing cash for the enormous demands of the United States. England has so managed as to make France and Germany send most of the gold, and the resulting war of exchanges between foreign nations checks for the moment the movement of gold this way.

The outgo of wheat staggers all the prophets of disasters, but while the price has advanced 3 cents at the west, the rise would have been much greater but for the feeling that the enormous foreign demand may not last.

The corn exports continue large, and, although it is the bottom point of the year for corn, prices have risen nearly 1½ cents during the week.

While cotton spinners are said to have agreed upon a selling agency and a curtailment of production, there is a better demand for staple goods and a prospect of a better demand in the future. In woolen goods also there has been a marked improvement during the past week, and better sales with extensive inquiry.

There is much hesitation in the iron and steel trade, partly because the outcome of various combinations in bessemer pig, steel rails, bars, wire nails and the like can not yet be definitely anticipated. If general buying was expected to result from these movements, it has not appeared thus far. Yet prices of domestic products have not declined.

Failures for the week have been 221 in the United States, against 224 last year, and 24 in Canada, against 36 last year.

Secretary Gage Sustained.

Washington, Oct. 22.—Judge Cox, in the district supreme court, decided the cases of George B. Wightman and of William H. Wharton against Secretary Gage in favor of the secretary of the treasury. One suit sought an injunction and the other a mandamus, the basis of complaint of each being the rejection by the secretary of bids for the recent war loan bond issue by the complainants. Secretary Gage rejected the bids, believing the bidders really represented certain institutions.

About Public Lands.

Washington, Oct. 22.—A statement prepared at the general land office shows that at the present time there are 579,368,274 acres of unappropriated and unreserved public land in the United States, exclusive of Alaska. Of this area 546,549,655 acres, or more than 94 per cent are in the 13 so-called desert land states and territories. Of the vacant lands in these states and territories, it is estimated that 332,176,000 acres are of a character that may be denominated as "desert."

Political Riot in Texas.

Fort Worth, Tex., Oct. 22.—Trouble between whites and blacks over politics has culminated in a fight, in which Hope Adams, independent candidate for sheriff and leader of the independent movement against the White Men's Union association, was shot and killed. Adams was fired on by unknown parties concealed in the county courthouse. The sheriff has wired Governor Culberson that he will be unable to preserve order, and wants the troops sent to the scene at once.

Order Still In Force.

Washington, Oct. 22.—The civil service commission has issued a circular which is being sent to the members of the 700 boards of examiners throughout the country on the "political activity of federal officers and employees." It calls attention to extracts from the executive instructions of July 14, 1886, which the circular says are still in force and which are republished for the information and guidance of all officers and employees in the executive civil service.

Deaconesses Elect Officers.

St. Louis, Oct. 22.—The conference of deaconesses, which has been in session in this city for several days past, has adjourned, after selecting Indianapolis as the next place of meeting and electing the following officers: President, Rev. C. Schild of Buffalo; secretary, Rev. H. W. Hortsch of Cincinnati; treasurer, Mr. Kramer of Indianapolis.

Druggists Are Satisfied.

St. Louis, Oct. 22.—The National Association of Retail Druggists has finished its business. After holding a series of meetings the delegates departed satisfied the organization having been completed and progress made toward remedying existing evils. The outlook for the retailer is very favorable for the elimination of cut prices which has been harmful to the trade.

CONTINUOUS OVATION

Marks Passage of the President Over Ohio.

BIG CROWDS AT ALL POINTS.

Defying the Cold and Rain, Citizens Gather at the Stations and Eagerly Listen to the Words of Chief Executive.

Columbus, O., Oct. 22.—One continuous ovation has marked the passage of President William McKinley over Ohio. Defying the wind and rain of a most disagreeable October day, the citizens have congregated in great numbers at every station along the line.

Never have they been disappointed, for the president has graciously appeared at every point where crowds awaited his coming, to speak a few words to his constituents and receive their approving cheers.

Just across the Ohio state line at Oxford students in cap and gown welcomed the president in the rain. The chief executive made a few remarks. Hamilton also turned out to greet the presidential party.

The train reached Cincinnati at 4:30. It backed into the union station, where the president bowed his acknowledgments to the crowd that was in waiting, but made no speech.

The rain was pouring down while the train was in that city and there were but few that knew the president was in the city. The chamber of commerce telegraphed the president, wanting to know if he could not stop there long enough for a reception, but the engagements at Columbus and elsewhere prevented him from leaving his train there.

The presidential party reached Columbus at 8:30, over an hour late. A fair sized crowd was at the station to greet the executive. The party immediately entered carriages and, escorted by the Seventeenth infantry and a number of regiments of volunteers, proceeded in the rain to the auditorium, where a large crowd enthusiastically welcomed the president. Mr. McKinley responded in a neat speech along the lines of others made on the trip. At 10 p. m. the party proceeded on the journey eastward.

CASHIER MISSING.

First National Bank at Lisbon, O., Closes Its Doors.

Lisbon, O., Oct. 22.—The First National bank of this place was closed by the directors.

P. J. Childs, who has been the cashier for 20 years, has not been seen since Thursday morning. The bank examiners are in charge of the institution.

No Other Agreement.

Paris, Oct. 22.—An effort is being made here to create the impression that there is some understanding between the United States and Spain regarding the Philippine islands outside of the statements contained in the third article of the protocol. That article embodies the only agreement between the United States and Spain in regard to the Philippine islands, and it is clearly set forth that the United States will occupy and hold the city, bay and harbor of Manila, pending the conclusion of a treaty of peace which shall determine the control, disposition and government of the Philippine islands. Beyond this protocol agreement, it can be asserted with confidence there is no other understanding on the subject between the United States and Spain.

Rations For Nurses.

Washington, Oct. 22.—The following order has been issued by the war department: "Inasmuch as female nurses in general hospitals are, by section 1277, Revised Statutes, entitled to commutation of rations, it is ordered that commutation or rations will hereafter be allowed to all nurses, whether male or female, or whether employed in general or other hospitals, when they are granted leaves of absence by the surgeon general of the army, the rate to be the same as that of enlisted men on furlough; that is, 25 cents per day."

Murderer Reprieved.

Boise, Ida., Oct. 22.—Governor Stuenkelberg, at the request of the state board of pardons, has granted a reprieve to "Diamond Field Jack" Davis, who was under sentence to hang next Friday for the murder of Cummings and Wilson, the sheepherders. The reprieve is to last until Dec. 16, for the purpose of ascertaining whether Davis killed the sheepmen or Jeff Gray and James F. Bower, the latter of whom filed an affidavit in support of Davis' plea for clemency.

Held a Joint Session.

Paris, Oct. 22.—The United States and Spanish commissions held a joint session. It was believed the Cuban question would not be decided, but would be taken up again at the joint session of Monday next.

THE TURNPIKE BOND QUESTION.

The turnpike question is before the people in Nicholas County, as well as in Mason, for settlement at the approaching election, and the Carle Mercury has the following timely editorial on the subject:

The question of issuing bonds to pay for the turnpikes in this county is beginning to receive the attention it deserves. So far as the editor of the Mercury is concerned the bond issue does not personally concern him, except he will have to pay his share of the taxes, but this he is willing to do if the matter can be settled. We desire to spend the remaining days we have in a community free from brawls, riots, street quarrels and law suits. We desire to see property rights respected and peace and prosperity prevail.

To this end it is necessary to settle the road question, and to do it at the least cost.

It is most probable—in fact it is a certainty—that the owners of the pikes will, if some arrangement is not made to pay them, re-assert their ownership and control. When this is done they will undertake to re-establish the toll system, and this of course will bring on a conflict—riot, bloodshed and expense.

Of course if the people think this is the best for the county they will pursue such a course as will bring it about. As for us we dread such a state of affairs. Our candid opinion is that the surest, safest, best and shortest way out of our trouble is to vote the bonds, pay for the roads, take charge of them, keep them in repair, and thus settle the most troublesome question that has agitated this State in twenty-five years.

The idea of lawing and quarreling over the roads for the next ten or fifteen years, with the roads going to ruin, is a disagreeable one to us. Let us have peace.

JUDGE RAMSAY.

A Prominent Young Bath County Democrat Died Suddenly Friday of Heart Disease.

OWINGSVILLE, Ky., Oct. 21.—Judge William G. Ramsey, twenty-eight, died at his father's home here this morning at 1 o'clock. Judge Ramsey had just returned from the Grand Lodge of F. and A. M. at Louisville, and was taken suddenly ill of neuralgia of the heart.

He was one of the youngest County Judges ever elected in this State, and was prominently connected, being the nephew of J. B. Goodpastor, President of the Farmers' Bank of this place. He was a graduate of Washington-Lee University, of Ann Arbor Law School and took a post-graduate course in law and classics.

His father, John R. Ramsay, was elected Grand Deputy Master of the F. and A. M. at Louisville Tuesday last.

Judge Ramsey was popular in this county among all classes, and was prominently mentioned last summer as a Democratic candidate for Congress.

New crop New Orleans molasses.
R. B. LOVELL.

Fine Tobacco Crop.

RIPLEY, O., October 20.—In the Brown County (Ohio) and Mason County (Kentucky) white burley district the tobacco is all cut and housed. Barns and other available buildings are stuffed full. Stripping has begun, and with the next wet season everybody will be pulling off and tying up the leaves. The quality of the crop is excellent, although there will be more red tobacco than usual. The plants ripened thoroughly and much of the flying trash fell off during the cool, dry season of maturing. No part of the crop will be frosted and there is hardly any houseburned. Taken altogether it is a splendid yield, both in quantity and quality.

PUGH AND DEFEAT.

That's What the Republicans of This District Have Chosen.

Ante-Convention Warnings by G. O. P. Journals—A Roast For Mr. Pugh.

(Dover Public Messenger, Copied and Endorsed by the Maysville Public Ledger, Both Republicans.)

The entries in the race for the Republican Congressional nomination in the Ninth district are all in and the case is made up. It now rests with the delegations from the several counties composing the district to name a candidate who will be elected and secure a Republican victory.

Can Congressman Pugh be elected, if nominated? Emphatically, no! His official misconduct in the administration of his two terms in Congress clearly disqualifies him from the support of a large element of the Republican party. How then would his race result at the November election, with a respectable following in his own party hopelessly arrayed against him, and the many charges which will be irrefutably sprung upon him by his Democratic opponent?

Mr. Pugh has admitted that he can't be elected this time; therefore this is no campaign lie against him. Why then does he persist in making the race? Because, if defeated, he already has the promise of another fat office.

Mr. Pugh's manipulation of the Federal offices in the Ninth district was so overtly and outrageously in the interest of his relations and to strengthen his own political position, that a large element of the party see nothing in sight, except more soft snaps for the Pugh-Thomas syndicate, and a life tenure in office for a family of chronic office holders and political bosses.

Mr. Pugh may receive the vote of Bracken County in the Greenup convention. But how is he to overcome the opposition against him arising from his promising the Augusta postmastership to Dr. Fabra, A. E. Rankins and B. F. Ginn?

How is he to overcome his conniving at the defeat of the Hon. W. J. Dearing for Circuit Judge, and the understanding with certain Democrats that Judge Harbeson, Democrat, was to be elected?

Then take the cases of Thomas A. Davis, Judge M. C. Hutchins, J. B. Wilhoit and others, who were misled by Mr. Pugh's promises in order to hold them in line until he had a cinch on another term in Congress. This is not a campaign of abuse, but a few plain statements about a man who is trying to "hoodoo his party."

Mr. Pugh has been the most "promising" Congressman that ever went to Washington. He promised the same position to three men in several instances. He forgets Lincoln's admonition about "fooling all the people all the time."

Judge Pugh don't mind having Democrats appointed to office in his district, either, so long as they are relatives, or that he may use them for selfish political purposes.

Mr. Pugh should be content with twenty-six years of continuous office-holding and with the \$17,600 which he, Judge Thomas and their close relatives are drawing from the United States Treasury.

He should give somebody else a chance. Why not now modestly yield to the claims of his neighbor county, Mason, who sacrificed Judge Hutchins in his behalf?

The Hon. William H. Cox is Mason County's candidate and if nominated will make the race for Congress with a spotless record, and unhampered by any adverse conditions, charges or promises. His campaign would have every assurance of the united support of the Republican party. Besides the "sound money" Democrats—and there are hundreds in the district—would vote for Cox to a man. We have heard many of the best Democrats in Mason County say that if Cox is nominated they will vote for him.

For the last time we say will it be Cox and victory or Pugh and defeat; or nominate a dark horse and take the chances of electing a Republican in November?

Episcopal Church Statistics.

At the convention of the Episcopal Church in Washington City this week, the House of Deputies of the Committee on the State of the Church presented a comprehensive survey of the work of the last three years. While showing progress and healthy activity in the main, the report frankly pointed out retrogression in some respects and falling off in the percentage of contributions for certain objects. The total contributions of the last three years for all purposes reached \$31,541,178. There has been an increase of Bishops from 70 to 83; clergymen from 4,022 to 4,380. The number of baptisms has been 192,725; confirmations, 134,741; communicants, 681,645. The present church sittings are 1,088,901.

We show twenty-seven styles—two long shelves full. Foreign made—at least many of them are, and all are worthy stuffs. A few minutes testing of the styles and qualities in this section will do more than a column of talk. The goods are 36 to 42 inches wide.

FANCY CHEVIOTS AT 25 CENTS.

A very unusual lot of goods considering the upward trend of prices. They look like the Scotch goods and are suitable for either women's or children's wear.

COLORED SERGE 29c.

Forty-inch all wool Serge—one of the stand-by plain fabrics. This is the old price and we'll continue it until this lot is gone.

COVERT CLOTH AT 75c.

Fifty-two-inch satin-faced Covert, made nicely like the high-priced foreign goods. These come from a factory that never uses anything but wool, not a cotton thread. You will like them.

IT IS CONSTITUTIONAL.

The New Election Law So Decided by Judge Cantrell—It Goes to Higher Court.

GEORGETOWN, Ky., October 20.—The election law passed during the recent session of the Kentucky Legislature is constitutional. Judge Cantrell so decided today, at the conclusion of the argument in the case, the object of which was to test the validity of the act.

Judge Cantrell was prompt in rendering his decision, explaining that the questions involved were identical with those involved in the prison commission case, which was decided by him after hearing elaborate argument and giving profound thought and study to the solution of every point raised in that controversy.

Hon. John W. Ray, of Louisville, made the only argument in the election law case to-day. He and Judge William S. Pryor were on hand as the representatives of the Democratic party, contending for the constitutionality of the law. Attorney General Taylor and Judge Holt were present in the interest of the Republicans, who sought to have the law invalidated. The last named gentlemen did not care, they said, to argue the case until it goes before the Appellate Court, with which tribunal they will file their appeal from Judge Cantrell's ruling Saturday morning.

Leading attorneys from all parts of the State were here to-day to listen to the speeches and hear Judge Cantrell's opinion. They are almost unanimous in the belief that the decision reached by that jurist will be affirmed by the Court of Appeals.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate the stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50c. at J. J. Wood & Son's drug store.

His Life Was Saved.
Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from frightful death. In telling of it he says: "I was taken with typhoid fever that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular sizes 50 cents and \$1. Trial bottles free at J. J. FOUND DEAD.

W. C. Miner's Lifeless Body Discovered in His Room at St. Charles Hotel Friday.

In a Fit of Despondency He Had Fired the Fatal Shot That Ended His Earthly Existence.

Maysville was grievously shocked Friday at noon by the news of the suicide of Mr. W. C. Miner.

Shortly before 12 o'clock his lifeless body was found on the bed in his room on the third floor of the St. Charles Hotel.

A bullet wound over the right ear told the sad story. The weapon of death, a five-shot revolver of .32 calibre, was still held in the right hand. One chamber only had been fired, the ball passing through the brain and lodging under the skin on the opposite side.

The appearance of the body indicated that the unfortunate man had died without a struggle. At first glance, in the dim light of the room, one might have thought that he is only peacefully sleeping, but the still form, the pallid countenance and the blood-stained bed clothing told that it was the sleep of death.

Just what time the fatal shot was fired is not known, but the supposition is that it was done about 9 o'clock Friday morning. At that time the chamber-maid, Lydia Wolfe, colored, was in another room on the same floor, in the front portion of the building, when she heard a report. It was not loud enough to alarm her, and she and a lady guest of the hotel, who had also heard the report, concluded some child down on the street had fired a cracker.

Shortly afterwards the chamber-maid while passing the room thought she heard some one groaning. This frightened her, but for some reason she did not at once report the matter to Manager Willett. Finally, shortly before 12 o'clock, she went to Mr. Willett and told him she was afraid something was the matter with Mr. Miner, as he had not yet gotten up. The colored porter, Jim Armstrong, was at once sent to the room, and on lighting the gas was shocked at the sight that met his gaze.

Coroner Wood was at once notified and the verdict of the inquest was that deceased had come to his death by his own hand.

Deceased had been very despondent

for some time, and more so than usual on Thursday evening when he appeared so deeply absorbed that he paid no attention at all to some friends who spoke to him, making no reply to their questions as to how he was feeling. Shortly after this he went to his room and that was the last seen of him until his dead body was found. He left no writing, so far as known, assigning a cause for the deplorable deed.

After the body had been embalmed and prepared for burial, it was removed to the home of Mr. G. S. Judd, a brother-in-law to deceased.

Deceased was a son of the late S. S. Miner, and was about thirty-six years of age. He had been a life-long resident of this city and in his boyhood days and his early manhood few, if any, were more popular in business and social circles. He was for a long time connected with the Miner shoe house, as clerk, partner and last as proprietor, closing out the business a few years ago, the house having enjoyed an enviable career of over sixty-five years.

Mr. Miner was Past Eminent Commander of Maysville Commandery No. 10, K. T., Past High Priest of Maysville Chapter, R. A. M., Past Master of Maysville Lodge, F. and A. M., and Past Grand of Dekalb Lodge No. 12, I. O. O. F.

The funeral arrangements will not be concluded until after the arrival of his only surviving sister, Mrs. Bettie Smoot, of Louisville. She is expected on the 1:36 train this afternoon.

The funeral service will occur Sunday afternoon at 2 o'clock, at residence of Mr. G. S. Judd. Burial in Maysville Cemetery.

Washington Masons Stand Their Ground and Say Time Will Justify Them.

SEATTLE, WASH., October 20.—Past Grand Master J. H. Taylor, when shown the Associated Press dispatch from Louisville on the action of the Grand Lodge of Kentucky in withdrawing recognition from the Grand Lodge of Washington because it recognizes negro lodges, said:

"The Masons of the State of Washington are, in this matter, contending for a principle of right and justice. Kentucky can certainly get along without us, and it is equally certain that we can get along without Kentucky. We can afford to bide our time until such time as the future shall demonstrate that the Masons of Washington are right on this question, just as the then loudly condemned Abolitionists were right in their fight on slavery."

SAVED SOLDIERS.

Who Used Paine's Celery Compound Did Not Suffer From Fever.

The soldiers who did the most good were those who kept well.

There were plenty of brave men who were of little use when the time came, because they took less care of their health than they did of their musket.

Malarial and other fevers soon picked out these men much more unerringly than the enemy's sharpshooters.

One set of men went about keeping well in a businesslike way. They took Paine's Celery Compound at the first indications of intestinal troubles, weakness, or when fatigued and liable to fevers. They used Paine's Celery Compound to purify their blood and put their health on a firm basis as soon as they made up their minds to join the service.

Corporal Beck with thinks there was a great deal of needless sickness among the volunteers. At Chickamauga many of his mess mates followed his example and fortified themselves against disease by Paine's Celery Compound, and not a man of them had malaria or fever of any sort or spent a day in the hospital.

Corporal Beck with writes:

CAMP OLYMPIA, Sept. 17, 1898.
Dear Sirs—When I see so many of my poor comrades coming home looking fit only for a hospital cot, I give thanks to Paine's Compound for the fact that I went through my enlistment without any doctor's medicine, and am to-day even healthier than when I went to Chickamauga. I firmly believe that this good health is due to my using Paine's Celery Compound last winter and spring, which

made my blood pure and nerves strong to resist malaria and keep me well. Very truly yours,

CORPORAL JAMES O. BECKWITH,
Co. M, First Volunteer Infantry.

Secretary of War Stanton used to say that the best definition of rest is a change of occupation. That may be true for one in health, but a sick person needs to have his digestion regulated, his blood purified and his nerves invigorated. Paine's Celery Compound brings the sort of rest the sick body requires through sleep and nourishment.

Just as the great lawyer studies each one of his cases till he knows it on every side and in every possible aspect, so Professor Edward E. Phelps, M. D., L. L. D., of Dartmouth College, the discoverer of Paine's Celery Compound, had studied the nerves in health and disease, when well nourished and when under-nourished, in men and women and children, years before he looked for the remedy. Paine's Celery Compound was the outcome of his entire professional life. A fitting memorial to a life of hard study and close observation—a remedy that the world could not lose to-day, at any price!

Paine's Celery Compound calms and equalizes all the nervous tissues and induces the body to take on solid flesh. It purifies the blood, as is so clearly shown by the rapid clearing of the skin of all evidences of bad humors within. It is an infallible relief for salt rheum, eczema and all blood diseases.

New Weaving Machine.

Washington, Oct. 22.—In their effort to meet German competition the fabric manufacturers of Roubaix, France, have developed the new weaving machine, which, in speed, surpasses the new Northrop machine of American invention, and permits the use of ordinary material. The fabric produced is turned out at the astonishing rapid rate of from 100 to 175 yards per day of 10 hours. There is great economy, one workman overseeing six machines.

New Track to Be Laid.

Chicago, Oct. 22.—As a result of the visit of President Frank Thompson and other high officials of the Pennsylvania railroad to Chicago, that company will at once begin the execution of a plan of track construction involving the expenditure of \$1,000,000. In detail, the scheme provides for the laying of double tracks for the Panhandle and Pennsylvania lines between Chicago and Logansport and Fort Wayne, Ind.

Captured by a Priest.

Toledo, Oct. 22.—Rev. Father Hannin, 80, pastor of St. Patrick's church, discovered a burglar ransacking his room. The intruder tried to escape, but the aged priest clinched him and held him till the sexton arrived. The man gave his name as Michael Hayes, but the police recognized him as a noted criminal, who has made a specialty of robbing Catholic priests and churches of their costly altar services.

Muskegon, Mich., Oct. 22.—The Pentwater Furniture company's factory at Pentwater was wrecked by an explosion of two or three of the boilers. The cause of the explosion is as yet unknown. The killed are: Lou Tupper, electrician; Miller Sorenson, laborer. Injured: Tim Palmer, engineer; Fred Gerard and Otto Green, laborers.

Rivalry in Mining Industries.

Washington, Oct. 22.—From information obtained of the general land office it appears that there was an increase of nearly 400 mineral entries during the fiscal year 1898, as compared with 1897. This, it is said, indicates a marked revival in the mining industry, which had fallen to its lowest ebb in 1895, when but 757 entries were made.

Land Department Abolished.

Topeka, Oct. 22.—President Ripley of the Santa Fe has sent out a circular abolishing the land department of that road Nov. 1. All lands belonging to the Santa Fe, except coal lands, will go into the hands of John E. Frost, the present land agent. The lands which Mr. Frost has bought aggregate about 50,000 acres, distributed in 18 counties.

New Japanese Minister.

Washington, Oct. 22.—Minister Buck has informed the state department that the Japanese government has appointed Mr. Jutaro Komura, vice minister of foreign affairs, to be minister of Japan to the United States. Mr. Komura was born in 1853 and studied law at Harvard university.

A business man is not the most patient creature in the world. He cannot wait to hear any long-drawn-out story of the cause of his ailment. He doesn't care two straws about a fine spun theory of how he should treat himself. He may be predisposed to scrofula, or consumption. "That," he will tell you "has nothing to do with the case." He wants to be well. If he can be cured, write out a prescription and send in your bill! So, here's the first part of the proposition. Dr. Pierce's Golden Medical Discovery is a microbe hunter and killer. Many persons of scrofulous blood, encourage the breaking out of unsightly sores, to prevent the disease going to the lungs. There is no need of this state of dread and discomfort. Purify the blood. It can be done. "Golden Medical Discovery" will cure 98 per cent. of all consumptive cases, also of all other lingering bronchial, throat and lung diseases.

Special Election!

STATE OF KENTUCKY,
MASON COUNTY COURT,

And the Sheriff of Mason County is ordered and directed by this court to advertise said election and the object thereof for at least thirty days next before the day thereof in some newspaper having the largest circulation in the county, and also by printed handbills posted up at not less than four public places in each voting precinct in the county and at the court house door.

STATE OF KENTUCKY,
MASON COUNTY, }
I, C. L. Wood, Clerk of the Mason County Court, do certify that the foregoing is an exact copy of the order of the Mason Fiscal Court made as it appears of record in Order Book No. 2, page 74, Mason County Fiscal Court Records.
Given under my hand this August 10th, 1898.

Sterling turnpike roads as may be wholly situated in Mason County. All legal voters in said county shall be privileged to vote at said election. The same officers that by the regular election shall hold this election, which shall, in all respect, be held in accordance with the general election laws of this State.

Witness my official hand, this October 3, 1898.
